1997 Honda Paint Codes

Paint formulations are determined by each paint company. For questions about formulas or matching, contact your local paint distributor or the paint company's nearest regional office. American Honda does not endorse any paint company or type of paint; this information is provided for reference only.

The original paint is acrylic enamel. Paint codes with "M" are metallic colors; those with "P" are pearlescent colors.

NOTE: *Herberts Standox* uses the Honda Paint Code as its paint intermix code.

Japan-Produced Cars

- NOTES: The numbers following the paint description represent the paint process used during manufacture of the vehicle:
- 1 A clear coat is applied over the color coat.
 - 2 A small amount of color is mixed with a clear coat and applied over the color coat.
 - 3 A clear coat was not applied at the factory.
