1999 Honda Paint Codes

Paint formulations are determined by each paint company. For questions about formulas or matching, contact your local paint company's nearest regional office. American Honda does not endorse any paint company or type of paint; this information is provided for reference only.

The original paint is acrylic enamel. Paint codes with "M" are metallic colors; those with "P" are pearlescent colors.

NOTE: *Herberts Standox* uses the Honda Paint Code as its paint intermix code.

Marysville, Ohio-produced cars (VIN: 1HGCF/CG _____ XA _____)

| PAINT CODE | COLOR | MODEL | DUPONT | PPG | BASF (Add "-3" suffix to each number) | SHERWIN- WILLIAMS Martin Senour | SIKKENS (Add "HON" prefix to each number) | ICI AUTOCOLOR | SPIES- HECKER | HONDA TOUCH-UP P/N (Add "08703-" prefix to each number) |

NOTES:

The numbers following the paint description represent the paint process used during manufacture of the vehicle:

- 1 Two-stage process, a clear coat is applied over the color coat.
- 2 A small amount of color is mixed with a clear coat and applied over the color coat (two-stage process with tinted clear).
- 3 No clear coat was applied (single stage process).

058592

CUSTOMER INFORMATION: The information in this bulletin is intended for use *only* by skilled technicians who have the proper tools, equipment, and training to correctly and safely maintain your vehicle. These procedures should not be attempted by "do-it-yourselfers," and you should not assume this bulletin applies to your vehicle, or that your vehicle has the condition described. To determine whether this information applies, contact an authorized Honda automobile dealer.
