

VANCOUVER SCHOOLS

Establishing Their Heritage Value

City of Vancouver • Vancouver School Board

The City of Vancouver and the Vancouver School Board are working together to establish the community heritage values of Vancouver public schools. As part of the BC Schools Seismic Mitigation Program, at-risk schools will be seismically upgraded over the next 10 to 15 years. Heritage values are important to identify, as seismic upgrading may include options for partial or complete replacement of some schools. Heritage value is one of several factors that will be considered in the seismic upgrading of public schools in Vancouver.

Please join us at any of the following Open House dates, when the methodology to determine heritage values will be presented for public feedback.

Monday, May 15th, 2006
7:00 - 9:00 pm
Library, Kitsilano Secondary
2550 West 10th Avenue

Wednesday May 17th, 2006
