

HyperStudio Project
Explorations IV Grade 8/Fl
Due Date Thursday, April 25th., 2002

Important Notes : **Name** _____ **Block** _____

1. Use HyperStudio to author your multimedia project.
2. Make sure you **SAVE** everything for your project to your HyperStudio folder created inside your Username folder on the Banting Server.

Theme _____ **(10 Marks)** _____

Step 1 : Plan a stack that has a specific theme. For example, do not just create a stack about cars, create a page about Ford vans or Volkswagen beetles. Your stack may not glorify violence. In particular, any stack about wrestling or gory video games will not be acceptable. If you choose to make a stack about a person, check with Mr. Brear first.

Make sure the title and headings reflect the theme of the stack. Most importantly, try to be ORIGINAL. Finally, your stack topic should be something that interests you. Feel free to ask me for advice.

Step 2: Use the Internet to gather information about your theme. Use the search engines on the school's Web site. Plan out your project using a Mind Map , create it on the back of this sheet. Also, write down the URL of any useful web site that you find so that you can refer back to it later.
