

EXPLORATION IV COMPUTER STUDIES Spreadsheet Assignment

Topic : NBA/NHL team playoffs, wins and losses. Baseball teams wins/losses and NBA, NHL and baseball, player stats !!

Helpful Web Sites : Use the Project Links on the Banting Web site to go to the baseball, basketball and hockey Web sites.

Task 1 : There are 16 teams in each of the playoffs in the NBA or NHL. Create a spreadsheet showing their present win/loss record. Graph it. Estimate where they will be at the end of the playoffs and graph this one as well. Print and save them both and place them in your Computer Studies folder. Do the same for baseball but pick only 10 teams and estimate for June 7, 2001.

Task 2 : Pick ten players to follow from the NHL, NBA or baseball. Create a spreadsheet that shows their current stats in their respective leagues. Graph it. Estimate where they will be at the end of the playoffs or June 7, 2001 and graph this one as well. Print and save them both and place them in your Computer Studies folder.

Below is an example from the official baseball standings, Monday, April 16, 2001.

	A	B	C	D
1	Baseball Team	Won	Lost	
2				
3	Expos	7	5	
4	Blue Jays	9	4	
5	Mariners	9	3	
6	Yankees	8	5	
7	Mets	4	8	
8	Dodgers	7	6	
9	Phillies	7	4	
10	Astros	8	4	
11	Cubs	8	4	
12	White Sox	4	7
