

Orchids for Everyone

The theme of this year's show is Orchids for Everyone. We wish to encourage the idea that growing orchids is a hobby that everyone can enjoy. There are many types of orchids that are easy to care for and that will grow well in the normal home environment experienced here in Calgary.

The Foothills Orchid Society membership is very diverse and includes people of all ages and occupations. Some of our members grow small collections on windowsills while others have entire greenhouses or sunrooms devoted to growing orchids for show and competition.

For those just starting out or considering buying their first orchid, the show will include orchid culture presentations and Society members happy to provide information and to answer any questions about the different types of orchids and how to care for them.
