Ken,

I am please to confirm CBC's intent to provide suitable telecommunications tower access for Gabriola's Police, Fire, Ambulance, and first responders' antennas and the Gabriola Radio Society's FM antenna subject to the success of both CBC's Nanaimo FM licensing and the successful completion of a CBC tower project on Dave Lorette's property.

I am grateful for the society's continued support for CBC's plans at Gabriola, and for your offer to support our license application. For your information, the deadline for written support to the CRTC is January 23, 2008 -- I have added information on how to go about providing support through both email and Facebook below.

Thank you,

Jason Coleman
