“Our promises made for the future  
are evaluated by the promises kept  
in our past”

As we look to our future with dynamically  
changing relationships we must be vigilant  
that our rights and wins do not become  
endangered. I know that I have the  
record, the experience and the wisdom to  
remember our past and the will to protect  
our present while working for our  
tomorrow.—Pat Wakefield
