God is moving! This move is not limited to the four walls of a church building. He's moving outside, on the streets, in the malls, in the marketplace, and everywhere believers are allowing Him to flow! Come and be equipped, not just to walk in your health, but to bring healing to the nations through your own hands. This school will include intense biblical teaching on health, healing, and deliverance, as well as mobilization onto the streets and into the marketplace!
